CONTENTS VOLUME 45 NUMBER 1 1998

Editorial

Dunnett, S. B. i

Review Article

Using c-*fos* as a neural marker of pain.
Harris, J. A. 1

Articles

Effect of ciliary neurotrophic factor on body temperature and cerebrospinal fluid prostanoids in the cat.
Akarsu, E. S., I. Bishai, and F. Coceani 9

Endothelin ET_B receptor subtype mediates nitric oxide/cGMP formation in rat adrenal medulla.
Mathison, Y. and A. Israel 15

Involvement of striatal cholinergic receptors in reaction time and fixed-interval responding in rats.
Blokland, A. 21

Central connections of the ovine olfactory bulb formation identified using wheat germ agglutinin-conjugated horseradish peroxidase.
Jansen, H. T., G. A. Iwamoto, and G. L. Jackson 27

Conditioned place-preference analysis in the goldfish with the H_1 histamine antagonist chlorpheniramine.
Mattioli, R., C. A. Nelson, J. P. Huston, and R. E. Spieler 41

Preoperative regimens of magnesium facilitate recovery of function and prevent subcortical atrophy following lesions of the rat sensorimotor cortex.
Hoane, M. R., S. L. Irish, B. B. Marks, and T. M. Barth 45

Mechanisms of melatonin inhibition of neurohypophysial hormone release from the rat hypothalamus *in vitro*.
Yasin, S. A. and M. L. Forsling 53

Inhibitory effect of A10 dopaminergic neurons of the ventral tegmental area on the orienting response evoked by acoustic stimulation in the cat.
Crescimanno, G., F. Sorbera, A. Emmi, and G. Amato 61

Neurobehavioral effects of anandamide and cannabinoid receptor gene expression in mice.
Chakrabarti, A., J. E. Ekuta, and E. S. Onaivi 67

Stress-induced stimulation of pituitary POMC gene expression is associated with activation of transcription factor AP-1 in hypothalamus and pituitary.
Autelitano, D. J. 75

Effects of CO_2 and pH on the spinal respiratory rhythm generator *in vitro*.
Dubayle, D. and D. Viala 83

The effects of intrahippocampal scopolamine infusions on anxiety in rats as measured by the black-white box test.
Smythe, J. W., S. Bhatnagar, D. Murphy, C. Timothy, and B. Costall 89

Responses of neurons in the parabrachial region of the rat to electrical stimulation of the superior laryngeal nerve and chemical stimulation of the larynx.
Miyaoka, Y., T. Shingai, Y. Takahashi, J.-I. Nakamura, and Y. Yamada 95

Sex differences in anterior commissure size in the rat.
Noonan, M., M. A. Smith, K. Kelleher, and M. A. Sanfilippo 101

Asymmetry in the left and right habenulo-interpeduncular tracts in the frog.
Guglielmotti, V. and L. Fiorino 105

Technical Reports

Effects of radiochemical impurities on measurements of transfer constants for [^{14}C]sucrose permeation of normal and injured blood–brain barrier of rats.
Preston, E., D. O. Foster, and P. A. Mills 111

A multipurpose four-channel fluid swivel.
Parada, M. A., M. P. De Parada, L. Hernandez, E. Murzi, and B. Hoebel 117

Articles

Cortical catecholamine secretion following intravenous nitroprusside infusion: A voltammetric study.
Swiergiel, A. H., V. S. Palamarchouk, G. Smagin, and A. J. Dunn 125

Effect of stimulating peripheral and central neural pathways on pharyngeal muscle contraction timing during swallowing in dogs.
Venker-van Haagen, A. J., W. E. Van den Brom, and L. J. Hellebrekers 131

Effects of growth factors and estrogen on the development of septal cholinergic neurons from the rat.
Mudd, L. M., J. Torres, T. F. Lopez, and J. Montague 137

Early biochemical detection of delayed neurotoxicity resulting from developmental exposure to chlorpyrifos.
Johnson, D. E., F. J. Seidler, and T. A. Slotkin 143

Manganese transport in the neural circuit of rat CNS.
Takeda, A., Y. Kodama, S. Ishiwatari, and S. Okada 149

Norepinephrine uptake is enhanced in discrete telencephalic and diencephalic areas and nuclei in prehepatic portal hypertensive rats.
Lemberg, A., J. Perazzo, S. Romay, F. Eizayaga, M. Vatta, M. Rodriguez-Fermepin, L. Bianciotti, A. Monserrat, and B. Fernandez 153

Effects of nicotine and footshock stress on dopamine release in the striatum and nucleus accumbens.
Takahashi, H., Y. Takada, N. Nagai, T. Urano, and A. Takada 157

Bimoclomol protects against vascular consequences of experimental subarachnoid hemorrage in rats.
Erdö, F., and S. L. Erdö 163

Mapping of cerebral metabolic activation in three models of cholinergic convulsions.
Scremin, O. U., T.-M. Shih, M. G. Li, and D. J. Jenden 167

Stress-induced increase in blood—brain barrier permeability in control and monosodium glutamate-treated rats.
Škultétyová, I., D. Tokarev, and D. Ježová 175

Insulin selectively downregulates α_2-adrenoceptors in the arcuate and dorsomedial nucleus.
Levin, B. E., P. Israel, and D. P. F. Lattemann 179

Isoproterenol inhibits IL-10, TNF-α, and nitric oxide production in RAW 264.7 macrophages.
Haskó, G., Z. H. Németh, C. Szabó, G. Zsilla, A. L. Salzman, and E. S. Vizi 183

Central amino acids mediate cardiovascular response to angiotensin II in the rat.
Zhu, D.-N., A. Moriguchi, H. Mikami, J. Higaki, and T. Ogihara 189

Dose-dependent brainstem neuropathology following repeated arteether administration in rats.
Genovese, R. F., D. B. Newman, Q. Li, J. O. Peggins, and T. G. Brewer 199

Feedback stimulation of somatodendritic serotonin release: A 5-HT$_3$ receptor-mediated effect in the raphe nuclei of the rat.
Bagdy, E., S. Solyom, and L. G. Harsing, Jr. 203

Convergence of limbic input to the cingulate motor cortex in the rhesus monkey.
Morecraft, R. J., and G. W. Van Hoesen 209

CONTENTS VOLUME 45 NUMBER 3 FEBRUARY 1998

Review Article

Cellular distribution and kinetic properties of high-affinity glutamate transporters.
Gegelashvili, G., and A. Schousboe 233

Articles

Dorsocaudal SCN microknife-cuts do not block short day responses in Siberian hamsters given melatonin infusions.
Song, C. K., and T. J. Bartness 239

Ultrastructural evidence for combined action of noradrenaline and vasoactive intestinal polypeptide upon neurons, astrocytes, and blood vessels of the rat cerebral cortex.
Paspalas, C. D., and G. C. Papadopoulos 247

Neuropeptides in the cat amygdala.
Marcos, P., R. Conveñas, J. A. Narvaez, J. A. Aguirre, G. Tramu, and S. Gonzalez-Baron 261

ATP-sensitive K^+ channels are involved in the mediation of intrathecal norepinephrine- or morphine-induced antinociception at the spinal level: A study using EMG planimetry of flexor reflex in rats.
Kang, Y.-M., Z.-H. Zhang, S.-W. Yang, J.-T. Qiao, and N. Dafny 269

Role of nitric oxide in modulating the release of dopamine, glutamate, and GABA in striatum of the freely moving rat.
Segovia, G., and F. Mora 275

Neuron–glia interaction in the suprachiasmatic nucleus: A double labeling light and electron microscopic immunocytochemical study in the rat.
Tamada, Y., M. Tanaka, K. Munekawa, S. Hayashi, H. Okamura, T. Kubo, Y. Hisa, and Y. Ibata 281

Dissociation between startle and prepulse inhibition in rats exposed to γ radiation at day 15 of embryogeny.
Mintz, M., G. Yovel, A. Gigi, and M. S. Myslobodsky 289

Altered guanosine and guanine concentrations in rabbit striatum following increased dopamine turnover.
Loeffler, D. A., P. A. LeWitt, P. L. Juneau, D. M. Camp, A. J. DeMaggio, P. Milbury, W. R. Matson, and M. P. Rathbone 297

Steroid dependent effects of oxytocin on spontaneous motor activity in female rats.
Petersson, M., S. Ahlenius, U. Wiberg, P. Alster, and K. Uvnäs-Moberg 301

Opiate disruption of maternal behavior: Morphine reduces, and naloxone restores, c-*fos* activity in the medial preoptic area of lactating rats.
Stafisso-Sandoz, G., D. Polley, E. Holt, K. G. Lambert, and C. H. Kinsley 307

Responses of raphe nucleus projecting subfornical organ neurons to angiotensin II in rats.
Tanaka, J., A. Ushigome, K. Hori, and M. Nomura 315

The role of the central cholinergic projections in cognition: Implications of the effects of scopolamine on discrimination learning by monkeys.
Harder, J. A., H. F. Baker, and R. M. Ridley 319

Altered cholinergic mechanisms and blood pressure regulation in the rostral ventrolateral medulla of DOCA-salt hypertensive rats.
Kubo, T., R. Fukumori, M. Kobayashi, and H. Yamaguchi 327

Changes in magnetic resonance imaging and sex behavior after 6-OHDA injection in the medial preoptic area.
Dhawan, J. K., V. M. Kumar, V. Govindaraju, and P. Raghunathan 333

CONTENTS VOLUME 45 NUMBER 4 MARCH 1 1998

Review Article

GABAergic deafferentation hypothesis of brain aging and Alzheimer's disease revisited.
Marczynski, T. J. 341

Articles

Binding profiles and physical dependence liabilities of selected benzodiazepine receptor ligands.
Richards, J. G., and J. R. Martin 381

The excitatory effects of the amygdala on hypothalamo—pituitary—adrenocortical responses are mediated by hypothalamic norepinephrine, serotonin, and CRF-41.
Feldman, S., and J. Weidenfeld 389

Effects of central injection of kyotorphin and L-arginine on oxytocin and vasopressin release and blood pressure in conscious rats.
Summy-Long, J. Y., V. Bui, S. Gestl, E. Koehler-Stec, H. Liu, M. L. Terrell, and M. Kadekaro 395

β-amyloid-induced cholinergic denervation correlates with enhanced nitric oxide synthase activity in rat cerebral cortex: Reversal by NMDA receptor blockade.
O'Mahony, S., T. Harkany, A. A. M. Rensink, I. Ábrahám, G. I. De Jong, J. L. Varga, M. Zarándi, B. Penke, C. Nyakas, P. G. M. Luiten, and B. E. Leonard 405

Complement depletion improves neurological function in cerebral ischemia.
Vasthare, U. S., F. C. Barone, H. M. Sarau, R. H. Rosenwasser, M. DiMartino, W. F. Young, and R. F. Tuma 413

The $GABA_A$ receptor γ_1-subunit in seizure prone (DBA/2) and resistant (C57BL/6) mice.
Wang, J. B., Z. F. Liu, P. Kofuji, and D. R. Burt 421

The effects of electroconvulsive shock on the short-latency somatosensory evoked potential in the rat.
Shaw, N. A. 427

Erratum 435

Articles

Influence of systemic arginine-lysine on immune organ function: An electrophysiologic study.
Niijima, A. and M. M. Meguid 437

Vasopressin neuron activation and Fos expression by stimulation of the caudal ventrolateral medulla.
Shioda, S., M. Iwase, I. Homma, S. Nakajo, K. Nakaya and Y. Nakai 443

Measurement of local cerebral blood flow by magnetic resonance imaging: *In vivo* autoradiographic strategy using ^{17}O-labeled water.
Arai, T., S. Nakao, S. Morikawa, T. Inubushi, T. Yokoi, K. Shimizu and K. Mori 451

Disruption of the activity—rest cycle of MAOI treatment: Dependence on light and a secondary visual pathway to the circadian pacemaker.
Duncan, Jr., W. C., K. A. Johnson, E. Sutin and T. A. Wehr 457

Receptor-mediated activation of G-proteins by κ opioid agonists in frog (*Rana esculenta*) brain membranes.
Rottmann, M., G. Fábián, K. Spicher, S. Offermanns and M. Szücs 467

Effect of RGH-2716 on learning and memory deficits of young and aged rats in water-labyrinth.
Paróczai, M., B. Kiss and E. Kárpáti 475

Brain dopamine and amino acid concentrations in *Lurcher* mutant mice.
Reader, T. A., C. Strazielle, M. I. Botez and R. Lalonde 489

Dose-finding study with nimodipine: A selective central nervous system calcium channel blocker on aminophylline induced seizure models in rats.
Chakrabarti, A., H. K. Saini and S. K. Garg 495

Effects of halothane and methoxyflurane on regional brain and spinal cord substance P-like and beta-endorphin-like immunoreactivities in the rat.
Karuri, A. R., R. K. Agarwal, L. R. Engelking and M. S. A. Kumar 501

Interleukin-1β system (ligand, receptor type I, receptor accessory protein and receptor antagonist), TNF-α, TGF-β1 and neuropeptide Y mRNAs in specific brain regions during bacterial LPS-induced anorexia.
Illyin, S. E., D. Gayle, M. C. Flynn and C. R. Plata-Salamán 507

Secretion and increase of intracellular CuZn superoxide dismutase content in human neuroblastoma SK-N-BE cells subjected to oxidative stress.
Mondola, P., T. Annella, R. Serù, F. Santangelo, S. Iossa, A. Gioielli and M. Santillo 517

Ca^{2+}-channels involved in neostriatal glutamatergic transmission.
Bargas, J., G. X. Ayala, E. Hernández and E. Galarraga 521

Modulation of rat striatal glutamatergic response in search for new neuroprotective agents: Evaluation of melatonin and some kynurenine derivatives.
León, J., F. Vives, I. Gómez, E. Camacho, M. A. Gallo, A. Espinosa, G. Escarmes and D. Acuña-Castroviejo 525

Effects of cholinergic deafferentation and NGF on brain electrical coherence.
Holschneider, D. P., A. F. Leuchter, O. U. Scremin, D. M. Treiman and N. Y. Walton 531

Editorial

Dunnett, S. B. 543

Articles

Oxidized glutathione promotes sleep in rabbits.
Kimura, M., L. Kapás and J. M. Krueger 545

Self-stimulation from the mesencehphalon following intraventricular interleukin-2 administration.
Hebb, A. L. O., R. M. Zacharko, and H. Anisman 549

Alterations in catecholamine turnover in specific regions of the rat brain following acute exposure to nitrous oxide.
Karuri, A. R., G. Kugel, L. R. Engelking and M. S. A. Kumar 557

Substance P- and calcitonin gene-related peptide-containing nerve fibers in the nasal mucosa of chronically hypoxic rats
Matsuda, H., T. Kusakabe, Y. Hayashida, M. Furukawa, T. Kawakami, T. Takenaka, and M. Tsukuda 563

Expression of Fos in the spinal motoneurons labelled by horseradish peroxidase following middle cerebral artery occlusion in rat.
Wu, Y.-P., and E.-A. Ling 571

Cognitive changes in mice following moderate MPTP exposure.
Tanila, H., M. Björklund, and P. Riekkinen Jr. 577

Further characterization of forebrain serotonin receptors mediating tachycardia in conscious rats.
Szabó, A., B. L. Butz, and R. H. Alper 583

A kinetic model on calcium residues and facilitation.
Lundh, D. 589

Time-dependent changes in neurotrophic factor mRNA expression after kindling and long-term potentiation in rats.
Morimoto, K., K. Sato, S. Sato, N. Yamada, and T. Hayabara 599

Postsynaptic integration of cholinergic and dopaminergic signals on medium-sized GABAergic projection neurons in the neostriatum.
Harsing, Jr., L. G. H., and M. J. Zigmond 607

Neurotoxicity of 25-OH-cholesterol on sympathetic neurons.
Chang, J. Y., K. D. Phelan, and J. A. Chavis 615

The globus pallidus sends axons to the thalamic reticular nucleus neurons projecting to the centromedian nucleus of the thalamus: A light and electron microscope study in the cat.
Kayahara, T., and K. Nakano 623

Regulation of hippocampal theta activity by corticosterone: Opposing functions of mineralocorticoid and glucocortoicoid receptors.
Murphy, D., B. Costall, and J. W. Smythe 631

The fatty acid composition of maternal diet affects the response to excitotoxic neural injury in neonatal rat pups.
Valencia, P., J. D. Carver, L. E. Wyble, V. J. Benford, E. Gilbert-Barness, Doris A. Wiener, and Christopher Phelps 637
